

ALESSIO PINTO

Full Stack Web Developer

Genoa, Liguria

(+39) 327 836 3979 | alessio.pinto02@gmail.com | alessiopinto.com | linkedin.com/in/alessio-pinto-595465334

SUMMARY

Full Stack Web Developer with experience in integrating **RESTful APIs** and creating **middleware (Laravel)**. Skilled in code **refactoring** and maintenance, database management, and optimization through **CI/CD pipelines (GitHub Actions)** and containerization (**Docker**).

EXPERIENCE

TWOW | Genoa

November 2025 - Present

Full Stack Developer

On-site Internship

- Design and development of full-stack web applications in an agile environment, using **PHP**, **JavaScript**, and **SQL**, managed via **Git**, in addition to the development of websites based on custom **WordPress** themes.
- Development and optimization of middleware and **RESTful APIs** with **Laravel** for secure and efficient communication between client and server.
- Refactoring, updating, and **maintenance** of existing code, ensuring high performance, stability, and accessibility of web services.

Applause | Genoa

July 2023 - Present

QA Tester

Remote

- Top **2%** of testers with solid experience in **functional testing** and **regression testing** on web and mobile products.
- Identification and **reporting** of **bugs** with detailed reports, contributing to the quality of production releases.

Team Test Lead

June 2025 - November 2025

- Coordination of test cycles, ensuring the correct **workflow** of testing activities.
- Supervision and quality **control** of reports submitted by testers, verifying their completeness and reproducibility.

PROJECTS

TST Media Management | PHP, JavaScript, SQL, AJAX

- Development of a plugin for the identification and secure management of unused media on sites with over **8,000 images**, with support for **ACF**, **WooCommerce**, **Gutenberg**, and **Polylang**.
- Design of a batch architecture with a **4-step** scan for shared hosting, virtual folder system, reversible trash, **ZIP export** via WP-CLI, and recursive analysis of serialized data structures.
